### About

I'm a Frontend Developer specialized in HTML, CSS, and JavaScript. I develop user-focused interfaces using technologies like React, TypeScript, and Redux. In some projects, I also use my backend knowledge, and I'm currently developing mobile applications with React Native. I have experience in MVC architecture, unit testing, and database knowledge to build sustainable and scalable projects. I prioritize design principles, communication, and teamwork.

### Education

#### Computer Programming • Associate Degree

Akdeniz University

Oct 2021 - Jul 2023

I have taken courses such as Web Programming, Systems Analysis and Design, Mobile Programming, Object-Oriented Programming, and Server Operating Systems.

#### IT/ Web Design • High School

Gölcük, Kocaeli

Oct 2017 - Jul 2021

I studied Web Design in the Information Technology department. Initially, I developed skills in C#, Algorithms, followed by improving my skills in HTML, CSS, and PHP.

### Projects
